Yes, I can include it in my rulemaking. I think the EQC date is around March 20, 2014. Public notice will start in October and run through mid-November. Here is a link to my rulemaking page on SharePoint: http://deqsps/programs/rulemaking/aq/ppu/default.aspx

The name of our rulemaking is "Air Quality Rule Changes and Updates."

I need redline/strikeout rule language, and blurbs for the staff report.

Thanks, Kevin!
Jill

Subject: RM-DESLGRNT - Approval to include in permanent rulemaking

Jill (Uri and Andy),

I want to confirm that it is your intention to allow for the clean diesel grant rule amendments implementing SB 249 (2013) to be incorporated into your rulemaking for consideration of permanent adoption by the EQC in March 2014.

Is there a date selected yet for the March meeting of the EQC?

What is the common name description of the rulemaking that the diesel amendments will be incorporated into?

Please advise me as to what is required from me to assist you in completing this rulemaking and when you need to have it. I can assist you in matters relating to facilitating this rulemaking even if it does not directly address my specific issue.

Thanks.
