Kevin, Like I mentioned earlier this week, one of your next steps is to send Maggie a blurb about the diesel grant rulemaking and Maggie will ask our web staff to create a folder on SharePoint for the rulemaking documents. I'll set up a meeting for next month for you and me to go over the rulemaking documents (templates) together.

Maggie,

We are contemplating a couple of additions to the rule agenda.

SB 249 provides more flexibility for diesel grants. We were going to roll this into an existing rulemaking, but might need to go sooner with a temporary rule due to grant deadlines. I believe Kevin is targeting December 2013.

Also, Cory Ann is contemplating a clean fuels cleanup rulemaking. If this happens, it would be before the first reports are due in spring 2014. I think this would be a permanent rulemaking.

What is the process for adding something to the rules agenda at this point? Do I need to bring it to a monthly EMT meeting, or is there another way this is handled?

Thanks.

Andy
