Kevin,

Below is the ORS related to notifying Legislators about rules. The section in yellow applies to the diesel rule. I interpret it to mean that we should notify the House and Senate Environment committee chairs, Dingfelder and Bailey. Also, SB 249 was requested by the interim Senate Business and Transportation Committee, so I think you might want to send it to the chair of that committee, Lee Beyer. I've provided their full names below and links to the web sites for Legislator addresses. I've attached a recent letter example.

I would like to review the letter text before it goes out. The letter is actually an e-mail from Andrea as Rules Coordinator with you as the contract person for technical questions. It should be a relatively short, concise message.

(15) The notices required under subsections (1) and (3) of this section must be given by the agency to the following persons:

(a) If the proposed adoption, amendment or repeal results from legislation that was passed within two years before notice is given under subsection (1) of this section, notice shall be given to the legislator who introduced the bill that subsequently was enacted into law, and to the chair or co chairs of all committees that reported the bill out, except for those committees whose sole action on the bill was referral to another committee.

(b) If the proposed adoption, amendment or repeal does not result from legislation that was passed within two years before notice is given under subsection (1) of this section, notice shall be given to the chair or co chairs of any interim or session committee with authority over the subject matter of the rule.

(c) If notice cannot be given under paragraph (a) or (b) of this subsection, notice shall be given to the Speaker of the House of Representatives and to the President of the Senate who are in office on the date the notice is given.

Senate Environment and Natural Resources
