All,

At today's HAMM meeting we discussed the clean fuels and diesel grant rulemaking and decided that you should move forward with the next step and begin the initial 8 hour process. Kevin, yesterday we decided to delay several rules scheduled for the October EQC meeting. I know that you are anxious to get the diesel rule in place so that you can move forward with grants. If you want to take a temporary rule to the October EQC, you can work with Andrea to see if it is still possible.

Thanks,
Margaret

Subject: July 3 HAMM - clean fuels and diesel grants

David and Uri,

At the **July 3 HAMM**, could you or staff (Cory and Kevin) explain the possible Clean Fuels and Diesel Grant rulemakings to other managers? The purpose of this HAMM agenda item is for AQ management to decide whether to move forward on these rulemakings. If HAMM agrees to move forward, Cory and Kevin would then draft concepts and schedules for these rulemakings, which includes about 8 hours of work each plus training from me on the new rule process. At that point, the rulemakings have not been officially added to DEQ's rulemaking agenda, but management has authorized staff to begin working on them.

At a later HAMM, managers would discuss the concepts and schedule drafted by Cory and Kevin – and then decide whether to officially add the rulemakings to DEQ's agenda.

I don't need to attend these meetings, but I'd be happy to answer any questions.

Thanks,

Andrea Curtis
