All –

I need to add two rules to the agency rulemaking agenda.

The first is in response to SB 249, which changed the criteria for clean diesel grants. In brief, the statute allows more projects to qualify for funding as long as they meet EPA grant criteria. We need to do a temporary and permanent rule because we are working on a grant under the new criteria that will be issued before the permanent rule can be adopted.

The second is a cleanup rule for phase 1 of the Clean Fuels Program. This rule will make some minor adjustments needed for smooth implementation of the program. This will just be a permanent rulemaking and needs to be completed before the first phase 1 reports are due next April.

I've attached a table showing the complete list of AQ rules on the agenda, including the two new ones, along with target public notice and EQC dates.

Please let me know if you have any questions.

Andy
