Merlyn,

FYI - Like Stephanie mentioned below, we have an addendum with updated motion language for EQC. You'll see in the presentation at the meeting that we changed the EQC motion to something like this:

DEQ recommends that the Environmental Quality Commission:

(1) Finds that the proposed rules are no less strict than any rule or standard of the Commission;
(2) Approves the proposed rules;
(3) Adopts the proposed amendment to OAR 340-200-0040 in Attachment A to incorporate the proposed rules into the Oregon Clean Air Act State Implementation Plan; and
(4) Directs DEQ to submit the proposed rules to the U.S. Environmental Protection Agency for approval.

Excellent!

Let's make it official: The LRAPA rules will be presented for commission consideration at noon on Thursday, March 20. I understand we have an addendum wit updated motion language we will send out with the slides on Monday, otherwise I think we're set.

Thank you all for your flexibility.
- Stephanie

Thanks!

Would you and Merlyn be able to move the LRAPA item to about noon on Thursday? We've had some other schedule shifts, and could take you before the commission's lunch that day (diesel item 11:45-noon, LRAPA rules 12-12:30).

Let me know if that might work, and thank you for your flexibility!

I have a meeting with AOI for 10 to 11:30 so that time change would be problematic.

Uri

Merlyn and Uri,

We have a request to relocate a few agenda items due to timing conflicts that have emerged this week, so I wanted to check in and see if you are both available for a potential move in timing to Thursday morning, roughly 10:30 a.m., instead of the afternoon.

I apologize for the request coming so late in the planning process, and your item will stay at its 2:30 p.m. time unless I have confirmation of your ability to reschedule and another item as well.

Thanks,
Stephanie
