I'd like to clarify, we don't need clean copies from each rulemaking, we just need the latest version of all the rules (titles) that were amended.

Robbye,

There's no rush, I just want to make sure this didn't drop off your radar:
Getting clean copies of the 2008, 2010 and 2011 rules from you.

Justin-

It was Oakridge and the Eugene/Springfield LMP, I believe you are referencing.

Andrea-

I will review the rules list you sent and get clean copies of the 2008, 2010 and 2011 rules over to you, as requested. We had a mill fire in Springfield last Thursday at one of our Title V sources. It burned to the ground and there is apparent fallout over about a 20 mile area with some samples testing positive for asbestos that we are dealing with this morning. Sorry I will look at the rules as soon as I can today.

Robbye

> I didn't plan to include LRAPA's documentation of anything; only DEQ's documentation

because DEQ's documentation shows that we followed all requirements for SIP rulemaking. Is this correct?

Thanks Andrea.

I think it looks ok. The main differences that I noticed were the addition of the "stringency" section, and the multiple adoptions that you mention below. With those, I think there were some documentation issues with past LRAPA adoptions, but were resolved with this go around (if I remember correctly, it was the Eugene Springfield LMP in 2012/2013 – right Robbeye?) so you should have all of the proper documentation for those.

So, yes, those documents that you have provided should be fine.

Justin

Hi, Before I mail the LRAPA permitting SIP submittal, I'd like both of your eyes on the draft letter and attachment cover page. This submittal is slightly different from others because we had two DEQ rulemakings (adopted at the same EQC meeting) and three LRAPA rulemakings (adopted by the LRAPA board in 2008, 2010 and 2011). Let me know if you think these are missing anything.
