Justin:

The links below should lead you to the rulemaking packets you requested. Some are rather large. Please let me know if you have any problems with them or any questions.

2008 Open Burning – Title 47 Redlined
2008 Open Burning – Title 47 Clean

2008 Industrial Permitting Streamlining Rulemaking – Many LRAPA Titles Involved – Redlined
2008 Industrial Permitting Streamlining Rulemaking – Many LRAPA Titles Involved - Clean

2010 Industrial Streamlining Corrections – Final Updates to the 2008 Rulemaking – Redlined
2010 Industrial Streamlining Corrections – Final Updated to the 2008 Rulemaking – Clean

2011 GHG/PM2.5/NSR Rulemaking – Many LRAPA Titles Involved – Redlined
2011 GHG/PM2.5/NSR Rulemaking – Many LRAPA Titles Involved – Clean

I have also attached EPA comments regarding the rulemakings to show that reviews of the process were done at various stages and hopefully to show whom at EPA was involved. There is probably more information if needed.

Please let me know of anything further that will help the process move forward and reach EQC by December 2013.

Thanks and appreciate the hard work that went into the meetings last week. It was great to meet everyone and a great opportunity to discuss so much SIP information in person. I really found the day extremely helpful and informative.

Regards-

Robbye Lanier
