Nicole and all:

Here is an effort at a cross reference on our rules that are reflected on the spreadsheet. I hope it is clear. It would be great to have the SIP updated for LRAPA so as we move forward with more rulemakings the most current rule is being amended and it is clear. Let me know if you have any questions. I also attached a version of the spreadsheet that has several ways of looking at this information.

ISR = industrial Streamlining Rulemaking
ISC = Industrial Streamlining Corrections

Hi, guys-
Attached is the latest and greatest spreadsheet.

Robbye – please work your magic and align the older Current LRAPA SIPs on hold with the Future LRAPA SIPs to be submitted ETA April 2013 – as well as that crosswalk!

My take away item is to check-in again with our legal counsel on the RH withdrawal letter or not. I'll be in touch and will hopefully have an answer before our next meeting on January 24th.

Thanks!
