Yes, and thank you! Sorry for the lack of confirmation back.

The commissioners have the slides and addendum in paper format, and the slides are loaded to the presentation computer.

Thanks!

Stephanie, Did you incorporate the latest presentation and addendum for LRAPA (attached)?

Andrea

Subject: EQC: Presenters - please remember to come up a few minutes early for your item
Importance: High

Hi, all.

The commission meeting has begun, and this is your heads-up on timing. The latest and greatest internal agenda is attached, and please note the timing for your item and be in EQC-A and ready to present 10-15 minutes prior to your listed time (just in case we're running early…it happens often). I will email you directly if there is a major time shift (earlier or later) as we progress through the meeting. For folks presenting tomorrow, I will let you know if anything moves up from the agenda and would shift items tomorrow (hopefully this won't happen, since I know many of the items have guests set for time-certain presentations). I appreciate everyone's responsiveness and flexibility during these meetings, as do the commissioners.

If you sent me slides (C, D, E, J and O) – I have them and they are on the machine ready to pull up. If anyone else has slides, please bring them up on a flash drive and know it will take a few minutes to load up the materials.

Gene and Andrea: Can you forward this to Peter and Merlyn? My system isn't picking up their names right now, oddly.

Thanks, and happy EQC!

- Stephanie
