Subject: Bullseye Glass and it"s use of Chromium
Date: Monday, March 14, 2016 21:10:35

Dear Deputy Director Hamilton,

Bullseye glass has a long history of responsible operation. I stand with Bullseye Glass in its efforts to continue operations as a responsible citizen of the social and business community of Portland, Oregon.

I am certian that you appreciate, having a B.S from U of O, that, regulatory decisions must be based on science, not political issues. A leading scientist, Dr. LaCourse, has said Bullseye's furnaces do not produce toxic chromium. We urge DEQ to rely on science and fact, and not to rush to impose these poorly written and misdirected rules.

Jim Scheller
Hillsboro, Oregon
