Subject:	DEQ Meeting and Bullseye Glass
Date:	Tuesday, March 15, 2016 04:38:28

A Plea from a concerned citizen:

Bullseye glass has a long history of responsible operation. I stand with Bullseye Glass in its efforts to continue operations as a responsible citizen of the social and business community of Portland, Oregon.

Regulatory decisions must be based on science, not political issues. A leading scientist, Dr. LaCourse, has said Bullseye's furnaces do not produce toxic chromium. We urge DEQ to rely on science and fact, and not to rush to impose these poorly written and misdirected rules.

Sincerely, Carol Feiertag
