Maggie,

I need to send LRAPA rulemaking documents out for review. I still don't have a folder on SharePoint for the four LRAPA rules. If this can't be done today, I plan to upload the LRAPA documents for all four rulemakings to the LRAPA site for Open Burning.

Maggie,

I want to add LRAPA rulemaking documents back to SharePoint. The four LRAPA SharePoint folders are still displayed on the AQ rules site. Were you going to eliminate these folders and create a single folder for all LRAPA rules?

Andrea

Hi,

They are under *AQ-RM-IncorporateLRAPArulesIntoSIP-Andrea Curtis*.

Let me know where I can find them, once you create a new folder for all of LRAPA. I was using the Notice documents in some of the existing LRAPA sites.

VANDEHEY Maggie has left a note on your profile page:
Never mind. I was able to work around it. Don't work in any of the old LRAPA SarePoint sub sites. I've archived the content on& #160;Rule_Development and will delete the SharePoint sub sites.
