Attachments:	image001.png

Hello Matthew,

Can you provide me a list of interested legislators I should send notice to for our Ozone 2018 Infrastructure and Interstate Transport SIP Submission? This rulemaking is basically a status report to EPA and the only rule change is updating the date of the most recent SIP submission in OAR 340-200-0040.

Let me know if you need any more info about this.

Thank you!
