Subject:	Clean Fuels Rulemaking notice to the EQC
Date:	Monday, February 29, 2016 8:55:11 AM

Hi Stephanie. Can you please send this email out to the EQC for me? Please cc me and Cory.

Thanks
D

Dear Commissioners,

DEQ is initiating a rulemaking to correct an error in the calculations for the clean fuel standards. DEQ confirmed this error after consulting with our regulated community. The 2015 baseline values and standards for the program do not accurately reflect a correction for energy density of different fuels. When the adjustments are made, fuels will produce fewer deficits and more credits, making compliance with the program easier. DEQ will correct these calculations as quickly as possible by conducting a temporary rulemaking for the April EQC meeting followed by recommending a permanent rule adoption at the August EQC meeting. If you have any questions please contact Cory Ann Wind at (503) 229-5388, wind.cory@deq.state.or.us

Thank you

David Collier
