Summary

DEQ and LRAPA propose to implement the Cleaner Air Oregon program and rules under the authority provided to LRAPA in OAR 340 division 245, with proposed amendments for related rules, to add public health-based protection from emissions of industrial toxic air contaminants to the Lane County's existing air permitting regulatory framework. Some of the proposed changes to existing rules would amend LRAPA's part of the Oregon Clean Air Act State Implementation Plan. These revisions would be submitted to EPA for incorporation into the Oregon Clean Air Act State Implementation Plan under OAR 340-200-0040.

Cleaner Air Oregon regulations were adopted by the Environmental Quality Commission on Nov. 15, 2018, and LRAPA is required to apply the requirements and procedures contained in the state rules, within Lane County.
