Subject:	New Clean Fuels Q-times
Date:	Wednesday, March 02, 2016 1:48:21 PM

All,

I've had a couple of new Clean Fuels Q-times set up that became effective March 1, 2016. Please forward this e-mail to other staff who may do work on the program but are not included above. Cory, when you have web work done, please provide these Q-time centers. I have added a project number to all of the Clean Fuels Q-times so that we can track the costs in the accounting records. If you set up new matters with DOJ, please use this coding: 17-11150-71012-A16550-00. I will work with DOJ to attach the project number to our existing DOJ matters.

The following Q-time should be used for work on the temporary and permanent standards revision rule making:

- Q-time 44783:Rulemaking: AQ Clean Fuels Revisions 2016
  Definition: To be used by DEQ staff working on the 2016 rulemaking to revise the Clean Fuels 2015 baseline values. This Q-time will be used for the temporary and permanent rule.

For general Clean Fuels work I have created a new Q-time center.

- Q-time 44782: Clean Fuels Program Implementation
  Definition: To be used by DEQ staff implementing the Clean Fuels program. Work includes coordination of fuels reporting, analysis, modeling and compliance. Use this new Q-time center instead of Q-time 26371 Climate Change coordination for Clean Fuels work beginning March 1, 2016.

Please let me know if you have questions.

Thanks,
Margaret
