Public affairs review complete on the staff report (only document needing my review). Minor changes and one comment.

Thanks,

Matthew

Subject: CFP Corrections Permanent Rulemaking

Everyone (but Paul), here is the draft staff report, proposed redline rules and proposed clean rules for the CFP Corrections rulemaking. Paul, I will send them to you separately for your review.

The proposed rules are identical to the ones adopted temporarily in April with one exception. The proposed rules also fix a spelling error in the names of some pathway identifiers used in the carbon intensity look-up tables, Tables 3 and 4. For example, ORETHC001 is being fixed to ETHCOR001. There is no substantive impact caused by correcting this spelling error.

I will be out of the office the week of July 25th and will only have email access in the evenings. Please keep the review moving in my absence. Thank you.
