I briefed Wendy Wiles on this just a few minutes ago. David wanted me to brief her and then decide how to bring it up with Dick. She agrees with the temp (April) then perm (August) plan and says she plans to discuss it with Dick on Monday. In the meantime, I will work on that paragraph of why it's important to do the temp rule per Garrahan's guidance and check back in with you next week.

I'm going home now ☺

i told you that. but its a question of whether its enough of an emergency to break the normal rulemaking procedure, to do a temporary rule, and to bother dick with when all this other stuff is going on.

Yes. Garrahan says I can't change the numbers in the tool without a rulemaking.

Large check to me. We can only do this if its some sort of emergency. Dick has to approve all rulemakings. I meet with Dick next in May unless something absolutely cannot wait until then, which seems unlikely given the time Dick is focusing on the air toxics right now. Is this temporary for the calculation number that's' wrong?

I've changed my mind since the last time I talked with you…I think. I now want to do a temporary in April and a permanent in August. What do I need to do to get the ball rolling?
