Done. But I don't know if these latest versions on SharePoint correspond to what was published? Andrea?

Jill,

Thank you for the call and for deleting the minor versions you are not interested in keeping. When you let me know you are done, I'll move ALL remaining versions, major and minor, to Rule_Development.

Regards.

I would like to save all the minor versions of the proposed rules, crosswalk, notice, and fiscal advisory committee meeting summary. How do I do that? I'm fine with moving everything else and only saving the major versions.

Hi—

Cory Ann and Andrea, you may go back to using SharePoint without concerns for space issues you had on Friday.

Jill and Andrea, the latest documents in the Notice folder for the permitting update are now in a

MAJOR version in preparation for moving the 4-Public Notice folder from SharePoint to Rule_Development...SharePointAtClose? This means no public notice documents will be available on SharePoint; all major versions would be available on Rule_Development; and minor versions will no longer be available. Are you OK with this move?

Thank you.
