Meyer,

The rulemaking package has been reviewed and approved by Lydia Emer, Greg Svetlund, and David Collier. I have gone through them all to make sure they are all property updated and finalized. The proposed rules have some sideways edit lines that I can't get rid of when track changes are off and they don't serve a meaningful purpose. Let me know if there is something more I need to do with these documents before you send them to Stephanie. Thanks for all your help on my first rulemaking.

Nancy
