As an FYI the Staff Report for this lists OAR 340-200-0020 as being amended instead of 340-200-0040. It probably doesn't matter but I'll make the change to the version that gets sent to EPA.

lets talk about re-writing it. We don't have to keep old junk that's ugly.

Here is a copy of the cover letter for the SIP submittal. Since you handled this rulemaking you may want to look it over, or not. I know it's poorly constructed but this is the format we've been using. I'm just filling it in as has been done in the past but I don't see why we couldn't restructure it if it would make it a better product.
