The edits to these documents are so minor and so few I think you should just find the changes in Lydia's document and type them in on your SharePoint document.

Sorry to include a couple of attachments. The SharePoint files were in use by another reviewer and I did not want to run out of desk time for you. Minor edits are attached. I also had some minor edits to the staff report on SharePoint.

Thanks,
Lydia

Hello all,

Attached are the rulemaking documents for your review and approval in preparation for the upcoming EQC meeting in October. This is a Infrastructure SIP update, adopting EPA's PM 2.5 annual standard. There are no new regulations with this rulemaking. In addition to the staff report and proposed rules, the "crosswalk" demonstrates to EPA that DEQ has the capacity to enforce the rule we are adopting. The Interstate Transport report is required by EPA to demonstrate that this rule amendment does not have an adverse air quality effect in neighboring states.

Please review and approve by noon Thursday, September 10th. If you have any questions give me a call (503) 229-6610.

Lydia, thank you for reviewing on behalf of Wendy. Ken, thank you for reviewing on behalf of Brian, and Jeffrey, thank you for covering for David if needed.
