Perfect.

I'll wait to hear from you all about the website and email and will update the news release to reflect that info – that will get published on our news releases page, and I'll GovDelivery email the same four lists I used last night (EQC, rulemaking, PATS amd statewide air toxics). Staff will get an update, too, prior to GovDelivery. Carol already has a comment email!

Thanks so much, Stephanie! Meyer is having a website set up for comments so that should be available soon. I'll ask him to send you the email address. I would also like to monitor it in addition to you so I can start working on responses if we get any early comments.

Thanks again,
Jill

I'll do you one better – scanned sheets attached.

Also, what email address would you like to establish for the comments? I can put in the ticket to helpdesk to get that cranking today, and then we can update/publish the news release with that email address on it. I can monitor for now or we can have a few folks with rights to it.

Thanks!

- Stephanie

Hi Stephanie,
When you have a minute, may I come down and make copies of the sign in sheets? I need to make an email list of all attendees.

Thanks!

Jill
