Subject: Selmet Delisting Update and Request for Information

Hi Meyer,

I just wanted to check in to see if you've received any feedback from the Leadership Team on the Selmet Notice and Rule? Lydia Emer and Brian Fuller have limited edits to the rule language that I've captured in comment boxes in the revised rule for your review and input.

As an update, as of last week, we have decided to conduct an informational public meeting on September 17th in Albany. We anticipate having a 10-minute presentation and Q&A session followed by the public hearing. I noticed that you've updated a public hearing checklist and draft script to the Selmet Delisting Sharepoint site, but I wonder whether you also have a recommended presentation format that we should use for the presentation portion of the hearing? Right now, we are considering pulling together a short PowerPoint presentation based on the information found in the Notice and Staff Memo. We plan to ask Selmet for pictures that we can use in the presentation (e.g., pictures of their products, evaporation pond and current process).

Please let me know if you have any questions and thanks in advance for your updates on LT feedback, reactions to the limited edits to the revised rule language, and input on a presentation format (or lack of one) for the public hearing.

Thanks!

-Eileen
