So, its probably a formatting thing like you say, but it seems the comment page is inserting weird characters for apostrophes and quotation marks, and then excel is making those characters weirder in the download process.

Comment page:

th Bullseye Glass in its efforts to continue operations as
, Oregon. Regulatory decisions must be based on scienc
niversity, has said Bullseyeâ€™s furnaces do not produc
to impose these poorly written and misdirected rules.

Excel version:
