That will have to be another rulemaking. There is no such procedure as making a temporary rule permanent. We have to do a full rulemaking and adopt permanent rules. Those permanent rules can have the same wording as the temporary ones that are in effect when the permanent is adopted.

We are going to have to make these temporary rules permanent while we are working on the real permanent rules…..can't have a gap in between.

We can change the name as part of the rulemaking. Its just like any text edit. We also have to remember these are temporary rules. So if we don't get permanent ones in place within 180 days, the previous permanent ones will resume after the temporaries expire.

Yes, I think that is okay. Might want to check with Meyer and/or the SOS if you can change the name of a division multiple times.

Jerry,

We went back and forth on where to put the temporary rules and ended up on division 244 on Sarah's recommendation. Because of that, we think we need to change the name of division 244 to **OREGON FEDERAL AND STATE HAZARDOUS AIR POLLUTANT PROGRAM** by adding "and state." Is that okay with you? We can probably change it back once we do the permanent rules.
Thanks,
Jill
