I talked to John Walsh – St Helens City Administrator and sent option letter via email. Based on that conversation my understanding is city bought from Office Max with indemnification. So I expect we will get a response with that information and need to engage with Office Max

Hi Paul,

This one fell through the cracks. The screening was completed and submitted to EPA but the option letter to the city was not sent.

I'll reach out to the city administrator before I send the letter to give him a heads up about the project.

It is a high priority but I am concerned that if we send this and they don't join VCP we don't have a PM with capacity to follow through on the project.

Please review the letter and send back a signed version or let me know if you have questions.

Thanks
Katie

This is ECSI 6487. We completed a federal screening but not a PA. Our Federal PA funding is allocated to another site. We could as EPA to do a PA for the site but I need to send an option letter to the city as it looks like that part fell through the cracks

Hi Katie. Do you know the status of this PA and potential ECSI listing?

Hi Kevin,

No, an ECSI site has not been set up for the Warren Barge site.

I saved the information we discussed a few months ago in the following folder for consideration for the 2021-2022 PA/SI grant that Kadin is beginning to manage:

\\deqhq1\cuppdshr\$ - CU FUNDING, BUDGET, FINANCING, COST RECOVERY\GRANTS\EPA Grants\PA-SI\20-22\20-22 WP & budget\2021-2022\2021 Work Plan\Potential Projects\USACOE_Abandoned Barges_Warren Peninsula

We have a planning meeting for the PA/SI work plan and sites to consider next Friday (9/24).

Hi Rebecca. Is there an ECSI number for the Warren Barge site?

Thanks Rebecca. I copied the WC-M&B National Historic Preservation Act 106 Report and several aerial photos into this folder.

Subject: PA/SI Abandoned Barge Folder

Hi Kevin,

Thanks for providing the context for the abandoned barges in the Columbia River near the Warren Peninsula. I will include the site as a candidate for a minimum of a Site Screening for the next PA/SI grant.

In the meantime, please save any files you have related to the site to the following folder: \\deqhq1\cuppdshr\GRANTS\EPA Grants\PA-SI\20-22\20-22 WP & budget\2021 Work Plan\USACOE_Abandoned Barges_Warren Peninsula

Once we receive approval for the work plan (and the funding), we can nail down (using non-leaded materials ☺) the sites and work with project managers on evaluating the site, including creating an ECSI site and consideration for an EPA non-time critical removal request.
