I've placed the resources, considerations, and schedule documents for your next rulemaking here: deqhq1\Currrent Plan\AQ-Clean Fuels Corrections 2016\1-Planning.

Meyer goes to the director in May to update the rulemaking plan.

I've requested a new SharePoint site for this rulemaking and it should be up soon.

If you're fine with the naming conventions I'll request a new email box be created for this rulemaking.
