---

This file would not have been emailed to us back then, so it is only in hard copy on our end. While we may be missing the report, the data would be in other monitoring reports. -Rob

**Subject:** I Need Your Help On This Rob:

Hello Rob, I am scanning in documents for site # 1171 Stanley Proto Tool and I have come across a report that was submitted to us with all of the pages in it, but for some reason now the ORIGINAL report is missing a lot of pages to it. I tired to find an electronic copy of this report, but I can not find one. The name of the report is 2003 Annual Groundwater Monitoring Report January 21, 2004 from Hahn & Associates, Incorporated. Please let me know what was accomplished with this report so that way I can keep track of this report and I will be able to recycle the old one once we get another copy that is electronic.
Thank You,
Dawn
