| **Subject:** | Planned Sample Date for City Monitoring Well PMW-1: March 26, 2024 (Former Stanley Proto Tools Site, ECSI No. 1171) |
| **Date:** | Monday, March 18, 2024 9:31:39 AM |

---

Ronelle and Jamie,
As you are likely aware, WSP will be taking over from Hahn the semi-annual monitoring of well PMW-1 for the remaining two years of the plan. Hahn will be involved in the transition to WSP for the next monitoring event, which is scheduled for March 26, 2024. Kelsi Evans will be the contact for WSP moving forward.

Can you please to arrange to have the City Well No. 4 pumping from at least 9:00 AM to Noon on March 26?

Also, we are still waiting to hear where we might be able to temporarily store the drum of purge water that will be generated that day. Maybe at one of the water treatment facilities, or another public works facility?

Let me know if you have any questions.

Best regards,
Roger Brown
HAI
