Subject:	invitation to participate on fiscal advisory committee for permanent art glass rule
Date:	Tuesday, April 26, 2016 1:43:20 PM

Hi Eric,

Thank you for talking with me just now. As I mentioned, DEQ is planning to pursue a permanent rulemaking to extend the temporary art glass rules approved by the EQC last week.

DEQ will be writing a staff report that includes a fiscal impact statement estimating the costs and benefits of making the rule permanent. I'm forming an advisory committee to review that fiscal impact statement, which will include representatives from affected companies as well as other groups. I would like to invite you to participate.

Participating would involve reviewing the fiscal impact statement, which I would email out the week before, and then participating in a 2-3 hour meeting that I hope to schedule for the week of May 23rd.

Your participation would be welcome and valuable. Based on our conversation, it sounds like you are interested in participating if legal issues do not prevent that. Please let me know when you can.

Thank you,

-Joe
