Subject:	for your review: draft staff report and rule language for art glass rule EQC package
Date:	Thursday, September 01, 2016 5:17:27 PM

Hello All,

We're reaching the home stretch on the art glass rule. Our proposed rule language and staff report will be emailed to the EQC and go public on Thursday, 9/15.

We have drafts of both documents and they are ready for review:

1. Staff report:
   http://deqsps/programs/rulemaking/lq/airtoxics2016/docs/artglass2016.staff.report.permanent.docx
2. Rule language:
   http://deqsps/programs/rulemaking/lq/airtoxics2016/docs/artglass2016%20revised%20rules%20simple.docx

Please review before our meeting next Thursday, 9/8 from 2-4pm. If possible, check the document out and make your edits in track changes mode in Sharepoint. If there are issues with checking in / checking out etc let me know. If you see big changes needed, please let George and I know as soon as you can.

Apologies for the inconsistent formatting in the staff report. I will be asking Emil for forgiveness and help to get that shipshape before submitting the final version.

-Joe

Ps- here are some previous documents, if you want to compare:

- Public notice packet that went out for public comment
- Temporary rule language
- Public comments on this rule
