Excellent. Thanks for the update, Joe, and nice job moving things along!

Thank you, Jaclyn, for your leadership on these issues and consultations with Lydia and Keith.

Subject: update re art glass decisions to make

Hi All,

We have one more decision made. Jaclyn made the call that we do want to make the rule statewide, which seems to be the consensus after feedback, including conversations with Lydia Emer and Keith Andersen in Western Region.

I've updated the 'list of decisions' document that we started at the decision meeting:

\\deqhq1\rule_development\Currrent Plan\AQ-Art Glass 2016 - Westersund\6-EQCPreparation\Art Glass Rulemaking Decisions 8-15-2016.pdf

There are two big decisions left to make, which are marked in red in the doc above.

- Should we require baghouse leak detection systems? [Jaclyn will decide]
- What should the applicability threshold be? [we are gathering more data]

-Joe
