Hi Emil,

I'm about to make an annoying request- apologies in advance.

Rereading the comment text, could you have these few words added: "and summarized in DEQ's response to comments", as shown below?

Apologies for my lack of organization,

-Joe

Comments that were submitted through DEQ's online system are below. Some comments were also submitted by email, in hard copy, or in person at the public hearing and will also be considered and summarized in DEQ's response to comments.

The language on the comment page has been updated.

Emil

Subject: request to update wording on rulemaking comment page

Hi Emil,

Could you help me make a change to the wording on the art glass rulemaking public comment page? There were a few comments that came in by email or hard copy that didn't get into the online comment system. The wording currently says, "DEQ received the following comments:"

I'd like the wording to read, "The following comments were posted to DEQ's online system. Some comments were also received by email, in hard copy, or in person at the public hearing and will also be considered."

-Joe
