Joe - have you been searching E-Bay? :) Thank you for providing this.

Folks - I added George as I thought he might want to review this too.

George and Jill and Jaclyn - let's keep this "in front" of us when DEQ reviews comments and determines what if any changes we make to the temporary rules in proposing them permanently to the Commission.

Joe - can you remind all of us our timeline for working on response to comments and the rule language? Basically, can you tell us what date public comment closes and what date our final package needs to go to Emil for review?

Thanks! Leah

Hi All,

I've written up draft minutes for the 2nd art glass fiscal advisory committee meeting, which took place on Friday 6/10.

You can review and comment by going to:
http://deqsps/programs/rulemaking/lq/airtoxics2016/docs/artglass2016%20ac%20meeting%20minutes%206-10-2016.docx

If you'd like to review, please give your input to me by noon next Monday, June 27th. I'm accepting comments via track changes mode, email, phone, or through text written on the bottom of a Sunbeam 4 quart ice cream maker with 49 Watt motorized crank and pine wood bucket.

-Joe
