Subject:	request to update wording on rulemaking comment page

Hi Emil,

Could you help me make a change to the wording on the art glass rulemaking public comment page? There were a few comments that came in by email or hard copy that didn't get into the online comment system. The wording currently says, "DEQ received the following comments:"

I'd like the wording to read, "The following comments were posted to DEQ's online system. Some comments were also received by email, in hard copy, or in person at the public hearing and will also be considered."
