Hi Keith,

My understanding is that DEQ's response to comment and proposed rules will become public when we send them to EQC for review, about 2-3 weeks before the 9/26 EQC meeting. I'll send a group email after this so we can decide how to communicate about that deadline.

I would also guess that our drafts, etc are FOIA-able if someone chooses to do that, but partial drafts may be less useful to them than the final package.

Will these be available for the public to see prior to the EQC meeting? I assume things are FOIA=able.
