Date: Wednesday, June 01, 2016 5:08:29 PM

I've asked Bullseye to provide info on #1 to #3 and I have at least some of that. My understanding is that there are multiple furnaces that could be operated to be under or over the 6S thresholds, and multiple baghouses that will be installed in series, so there are not clear answers to many relevant questions.

My updated fiscal estimate assumes between zero (low) and 2 (high) baghouses would get installed at Bullseye due to the proposed rule, over and above NESHAP 6S compliance.

No one is required to provide data for this fiscal impact statement, so my plan is to use what Bullseye has given me to date and put my next effort into learning about estimating health impact costs. We can ask more questions during the meeting if desired.

Are there notes from the proceedings that we could refer to for those questions that the Committee members had?

I recall there were questions as to:

1) Which furnaces are subject to the 6S NESHAPs and how that relates to the fiscal impact of the rules;
2) How much the installation of the bag house cost Bullseye; and
3) How much ongoing maintenance and operation is predicted to cost.

But I might be forgetting certain things - I think the note would be the best source of information. Thanks.

they'll have a representative there at the 2 meeting, but I don't plan to send a formal letter. Is there something important that you want to make sure I ask them before the meeting?

Note: I'm told that due to public meetings law, we can't have 'reply all' email conversations that include a quorum of the committee. Apparently it would be considered an electronic meeting for which we didn't give public notice.

Thank you, Joe. I believe the Committee recommended that DEQ send a letter to Bullseye asking for certain information to be provided, which would assist the Committee in assessing the fiscal impact of the proposed rule. Has DEQ sent that letter to Bullseye or does it intend to do so?

Hi Committee Members,

Thank you for your quick responses to my scheduling email. It looks like the date that works for the most people is:

Friday, June 10th
2pm to 4pm
Same location as before
(DEQ HQ, 811 SW 6th Ave, 10th floor conference room EQC-A)

Please mark your calendars.

It looks like a representative from Bullseye will be able to attend, which is great. Eric, if it won't be you, please let me know that person's name & title at least a few days ahead so I can process that on the DEQ side. Uroboros has also supplied some info by phone & email.

I hope to email you all a revised draft fiscal at the end of the day this Friday 6/3. For those who can't make it to the meeting (Abe, Paul and possibly Mark) you're still welcome to send me individual comments or questions.

Thank you for your patience and continued involvement,

-Joe

Subject: scheduling 2nd DEQ fiscal adv comm meeting: another try

Hi Committee Members,

Thank you for your patience with emails from me.

I'm trying to set up the 2nd fiscal advisory committee meeting you requested, while also keeping the rulemaking on schedule. My first try

was this Friday or coming Monday, but many people couldn't make it, and I'd like to give the public more notice that the meeting is happening.

I found some times next Wednesday, Thursday and Friday (6/8 to 6/10), and hope that one of these could work for the group. Please respond to this (hopefully last) poll, to let me know which days could work for you:

http://doodle.com/poll/ee43xw5bpkvgp29g

Please respond today if you're able. Thank you!
