I'm here tomorrow to do whatever's needed. We don't usually post the EQC packet other than what Stephanie does for the EQC agenda. Since there have been changes to the rules I understand the importance of giving people enough time before the EQC meeting to look them over but there's nothing that says we have to by tomorrow.

That being said, if we're done editing the rules and Pete finishes his review early enough, we'll be able to get this posted for people to see tomorrow.

Emil

That's right…after you said that, I recall you had that in your email description . My apologies, it is slightly overwhelming today.

I think we will have this sorted out by the end of the day but it probably won't go to the director until tomorrow unless we pull a late night.

Release of the rule proposal is already delayed until tomorrow noon- Stephanie Caldera said that the Director would want to review this before it goes out and he is not available today.

If we won't be able to finalize the documents today, I'll need to coordinate with Stephanie to make sure Pete is available at the time we'll have the documents ready.

I am here tomorrow and I believe Emil is as well.

Joe,

I will be calling in late to this call since I am conducting an interview and it is too late to reschedule. Some new information has been learned that might impact our rulemaking. We might not be able to post until tomorrow. Are you and Emil around if it is one day behind? What are the ramifications?
