Hi All,

Greg and Leah are out on Friday, but for those who are here let's meet and discuss the remaining issues we need to resolve on the art glass rule.

I will set up a webinar and share the screen so we can view and edit together.

Here's what I suggest for an agenda:
1. Decisions to make
a. Applicability threshold
i. 10 tpy of HAP-containing glass
ii. 5 tpy of HAP-containing glass
iii. Based on lbs/year of HAP used
b. Baghouse leak detection (if Jaclyn has new info or wants new feedback)
2. Review latest version of rule language (including comments and questions)
3. If time, review draft responses to comments
