Hello Joe,

Since we're not creating new fees or increasing current fees just use the sentence in black: "This rulemaking does not involve fees."

Emil

Subject: question re notice of rulemaking

Hi Emil,

I'm starting in on the Notice of Rulemaking document and I notice a section called Fee Analysis.

Does this art glass permanent rulemaking involve fees? The rule will require several facilities to get permits, and they'll have to pay permit fees for that. But, we're not changing the fee structure for permits in general.

-Joe

Fee Analysis ORS 291.055(1)(d); Fee Approval

Include this language if these rules do not involve fees:

This rulemaking does not involve fees.

If fees are involved, copy and paste into this section the rulemaking template: FEE.ANALYSIS.docx.

Under ORS 291.055(1)(d), DAS must approve all fee increases except for:

- The fees created or authorized by statute have no established rate or amount but are calculated for each separate instance for each fee payer and are based on actual cost of services provided.
- New or increased fees that are anticipated in the legislative budgeting process for an agency, revenues from which are included, explicitly or implicitly, in the legislatively adopted budget for the agency.
