I went through the invitation to comment. The only thing missing is the room number (EQC A?) for the hearing.

The invitation to comment is almost complete and ready for communications review, however there a couple pieces (highlighted) that need your attention. Specifically, the description of noise rule proposal, and a couple of process/notification links that I am not familiar with.

I do the govdelivery and news releases. It is your responsibility to have communications review the notice and invitation to comment. You should send sharepoint links to Greg Svelund. You can do that now, since all management review is finished.

Will you engage the communications team for their review, news release prep, etc.? Or is that something that I need to initiate?
I am comfortable getting that started now, if you'd prefer.

Rian

I prefer two weeks, just in case. But normally they don't have a lot to say. Just make sure you allow yourself a little time before 4/15 in case you have to do any work on the documents before we file.

Meyer,
I will be preoccupied with other deadlines/priorities until next Thursday.
I don't think any further edits/revisions are necessary, but plan to do a final review of the documents late next week. I thought that we would get it to the leadership team by Monday 4/4 for their 1-week review. Let me know if there is a need to get an earlier jump on that timeline.

Rian,

Now that management has approved, we want to start the team preview period in the next few days. If you have any touchups to do on any of the documents, let me know when you think they're ready. We send the leadership team an email with links to the documents telling them we're getting ready to publish the notice on the rulemaking. We give LT a week to offer comments on the rule documents.
