That's because you don't have a SharePoint page yet. Your planning templates are in the rulemaking development folder/drive:

\\deqhq1\Rule_Development\Currrent Plan\WQ-ballast2016-Hooff\1-Planning

We normally don't make a sharepoint page until Dick has approved the rulemaking, because ordinarily there is no work yet to be done on SharePoint before that (drafting rules, drafting notice document.) I attached a copy of the notice template as an example. You won't need to do any of that work until you complete the planning documents. Once you have those done, I can get you a sharepoint page and put the advisory committee planning templates on there.

You could look at these rulemaking sharepoint pages as examples, although yours will be a little different because we are revising the pages:

Meyer,
I just went looking in the rulemaking sharepoint for the ballast2016 folder (with templates, etc.) and could not find the link under either the list of Land Quality or Water Quality Rulemaking Projects. Please let me know when/where I can find that link and the ballast2016 templates.

Thanks,
Rian
