Yep on both. I couldn't get in for a while. I see the whole packet up now.

Thanks for the help.

We're having some internet problems. The internet went down, so I took a walk around the block. I just checked and I'm seeing the corrected version with all the pages.

You originally had only uploaded only the invitation to comment. I tried to call you but couldn't reach you. So I sent the original packet with the fuzzy logo to Lia to see if she could upload that. Right now, when I click the packet link, I see only the invitation to comment.

I'm not sure what's going on here.

I just uploaded the new combined version. Did this already get done?

There was a problem with Acrobat and Word so I had to restart, but finally got all the pieces together…

Meyer, I uploaded the public notice package with the same name, so you'll have to clear your browser's cache to see it. Let me know if you have any questions. Thanks!
