Subject: ballast2016 - notice of advisory committee meeting

Could you please distribute a news release and Facebook and twitter posts announcing the upcoming advisory committee meeting for the ballast water rulemaking.

Meeting information:

- Wednesday, January 27, 2016
- 10 a.m. – 12:30 p.m.
- DEQ Headquarters; 811 SW 6th Ave., 10th Floor
- Link to ballast water rulemaking page: Ballast Water Rulemaking
- Link to ballast water advisory committee page: Ballast Water Rulemaking Advisory Committee
- Rulemaking summary:

"The Oregon Ballast Water Management Program plans to revise administrative rules in Division 340-143 under the authority of ORS Chapter 783 and House Bill 2207 (2015). DEQ plans to amend OAR 340-143-0010 as necessary to prevent the

discharge of ballast water that represents a high-risk for the transport and release of aquatic invasive species. DEQ will also amend OAR 340-143-0050 to specify management requirements for vessels using shipboard ballast water treatment systems. This rulemaking responds to gaps in existing regulations concerning aquatic invasive species prevention practices.

The rulemaking will incorporate recommendations from the Task Force on Shipping Transport of Aquatic Invasive Species. DEQ has also convened an advisory committee made up of task force members and additional interested parties to provide further input into DEQ's rulemaking effort."

Thank you.

Meyer Goldstein
