I requested they be posted on the advisory committee page. Since all documents are electronic, if you want, we can attach them to the notice as exhibits, appendices or attachments.

I have loaded the pdf citations to the sharepoint site, and they can be uploaded to the external rulemaking page at your convenience.

Thanks,
Rian

If you are going to reference them in the notice, we can post them on your main rulemaking page as supporting documents. We need to get them in to the rule development folder so they are part of the rulemaking record:

- \\deqhq1\Rule_Development\Currrent Plan\LQ-ballast2016-Hooff\1-Planning

Hi Meyer,
I have numerous science papers (about 10 pdfs's) that I have used as resources for the rulemaking effort and am referencing in the public notice document.
Where is the best place to post these pdf's so that I can provide a url in the public notice? On the advisory committee website?

Thanks,

Rian
