Rian, not sure if Sandra has had time to get back to you on this, but all of these kind of Qtime requests (non-cost recovery) should go through Sandra James, not Dawn.

I need a description for this timecenter. Here is the one for SW Fee rulemaking, if you need an example.

> "Develop revisions to administrative rules related to solid waste tipping and permit fees, and solid waste grants; create administrative rules to establish tipping fee reimbursement program for economically distressed communities."

Also, is there an end-date in mind?

Upon Bruce's approval, please create a new q-time for ballast water 'rulemaking 2016'. It should be funded from the -33773 ballast water fund code.
Thank you.

All rulemakings have to have a new, original Q-Time number unique to that rulemaking. Please ask your manager to obtain one for your rulemakings. Then please tell me what those numbers are.

Thank you.
