Subject: FW: re-naming outlook mailboxes
Date: Tuesday, January 05, 2016 11:40:20

I am having a problem using several Outlook mailboxes that Patrick Irvine re-named for me. They are listed below. All of the re-named mailboxes are sending auto-replies including text from the previous use of the mailboxes. I have logged in to each of the accounts, deleted the text from the auto-reply function, and turned off the auto reply. But all of these mailboxes are still sending auto replies. Can you please, for all of the re-named mailboxes listed below:

- Delete the text from the auto reply box
- Turn off auto reply

There is one additional re-named mailbox having this problem: previous name: RECYCLEED Water Rule – new name: cleanfuels2016

Thank you.

Thanks. I'm going to start setting up my rule writers with the rules that should forward the emails to these boxes, so by next week we should see if the system is working.

I'll reset the password for each account to the one you are probably thinking of.

Right now I can't think of a need to log in; but I thought it would be good to have the password just in case. For now, I think all I will be doing is PDF'ing the contents at the end of the rulemaking, and deleting those contents.

Hmm… I didn't set a password on them. I did not change the password on them either, for that matter. Will you need to log in to the accounts directly? Are you seeing an access denied error?

Yes, the user name is the rule name.

Emil and I both see the mailboxes in our Outlook. Do they all use the standard DEQ password? And is the login ID just the rule name?

Thank you.

Ok, it is all done. I am actually not sure how this will shake out as far as your Outlook access goes. I am hoping it will automatically update your views and grant you access, but things are rarely that easy. Let me know how it goes.

Subject: re-naming outlook mailboxes

I have archived the contents of the mailboxes listed below, and deleted those contents from the mailboxes:

- 2010WqFeeRule
- AQFeb2011Rules
- FederalRule
- FederalRule2010
- FieldBurningRules
- ToxicsRuleMaking

Please re-name the mailboxes as listed below (rulemaking name@deq.state.or.us), and give myself and Emil Hnidey permissions to access these mailboxes. Nobody else, other than IT staff, should have permission to access these mailboxes:

- levzev2016
- ballast2016
- recycling2016
- hazardouswastephase2
- cleanpower
- cwsrf2017

Thank you.
