Subject: Input Requested: Selmet Delisting EQC Report

Hi Meyer,

We're just a few hours away from the close of the public comment period for the Selmet Delisting and to celebrate the milestone, I'm attempting to get a head start on the EQC staff report (with a plan to get the staff report to the EQC by 10/26, approximately 5 weeks ahead of the November EQC meeting).

So far, it seems as if much of the information for the EQC can be taken directly from the Public Notice and Staff Memo, but there are quite a few section on the EQC report that seems like they might not be a good fit for delisting (e.g. some of the implementation section and some of the 5-year review).

I know that you have an all-day obligation on Monday, but do you have time to go over the EQC report on Tuesday morning?

Please see the link to my early draft of the EQC report for some more specific examples of questions that I hope to answer in time to get a draft to Brian and David for review late next week.

Thanks!

-Eileen
